The new improved "My vitaminbar" model has an electronic precision scale that guarantees precise, pre-setted juice volume extraction (pre-set volume is adjustable at will). The juicer motor automatically stops working as soon as the juice in the glass reaches the programmed weight. This ensures greater reliability in juicing and achieves optimum performance as well as economy for the user. Optionally, an "I-count", and non-resettable juice meter, provides accurate juices their full counting (per juicer).
